International Journal of
Satellite Communications

CONTENTS

Volume 19 Numbers 1–6

Volume 19 Number 1 January–February 2001

IP Special Issue
Guest Editor: Anthony Ephremides

Editorial: A. Ephremides 1

Reliable multicast via satellite: a comparison survey and taxonomy: M. W. Koyabe and G. Fairhurst 3

An architecture for Internet service via broadband satellite networks: V. G. Bharadwaj, J. S. Baras and N. P. Butts 29

Experimentation and modelling of HTTP over satellite channels: H. Kruse, M. Allman, J. Griner and D. Tran 51

IP routing issues in satellite constellation networks: L. Wood, A. Clerget, I. Andrikopoulos, G. Pavlou and W. Dabbous 69

TCP modifications over satellite channels: study and performance evaluation: M. Marchese 93

Buffer management and rate guarantees for TCP over satellite-ATM networks: R. Goyal, R. Jain, M. Goyal, S. Fahmy, B. Vandalore, S. Kota, N. Butts and T. vonDeak 111

IJSCEF 19(1–6) 1–602 (2001)
ISSN 0737–2884

Volume 19 Number 2 March–April 2001

Stochastic optimization of LMS resource assignments: A. Jahn 141

Blind equalization of quadrature partial response-trellis coded modulated signals in Rician fading: H. A. Cirpan and O. N. Ucan 159

Resource management model and performance evaluation for satellite communications: A. Jahn 169

Volume 19 Number 3 May–June 2001

Propagation Special Issue
Guest Editor: B. Arbesser-Rastburg

Editorial: B. Arbesser-Rastburg 205

Physical-statistical methods for determining state transition probabilities in mobile-satellite channel models: S. R. Saunders, C. Tzaras and B. G. Evans 207

Propagation considerations and fading countermeasures for mobile multimedia services: A. Jahn 223

Doppler spread characteristics of satellite personal communication channels: I. Frigyes, B. G. Molnár, R. Vallet, Z. Herczku and Z. Bodnár 251

Rain attenuation statistics from rain cell diameters and heights: G. H. Bryant, I. Adimula, C. Riva and G. Brussaard 263

Depolarization due to rain: the XPD–CPA relation: M. M. J. L. van de Kamp 285

Propagation phase noise and impact on future VSAT system design: E. Vilar and C. Catalan 303

Comparison of various methods for combining propagation effects and predicting loss in low-availability systems in the 20–50 GHz frequency range: L. Castanet, J. Lemorton, T. Konefal, A. K. Shukla, P. A. Watson and C. L. Wrench 317

Cloud attenuation modelling for SHF and EHF applications: A. Dissanayake, J. Allnutt and F. Haidara 335

A new opportunity for EHF propagation experiments: the EXPRESS campaign with the satellite STENTOR: J. Lemorton, L. Castanet, V. Huot and T. Marsault 347

Volume 19 Number 4 July–August 2001

High elevation angle satellite-to-earth 12 GHz propagation measurements in the tropics: Q. Pan, G. H. Bryant, J. McMahon, J. E. Allnutt and F. Haidara 363

Potential of combined spaceborne infrared and microwave radiometry for near real-time rainfall attenuation monitoring along earth-satellite links: F. S. Marzano, J. F. Turk, P. Ciotti, S. Di Michele and N. Pierdicca 385

Data collection from the Antarctic region through a W-band low Earth orbit satellite: M. Ruggieri, S. Falzini, E. Saggese, F. Corbelli and C. Bonifazi 413

Volume 19 Number 5 September–October 2001

Satellite Broadband Networking
Guest Editors: Catherine Rosenberg and Marie-José Montpetit

Editorial: C. Rosenberg and M.-J. Montpetit 425

TCP-Peach for satellite networks: analytical model and performance evaluation: I. F. Akyildiz, G. Morabito and S. Palazzo 429

Providing IP QoS over GEO satellite systems using MPLS: T. Ors and C. Rosenberg 443

Alternate link routing for traffic engineering in packet-oriented ISL networks: M. Mohorčič, M. Werner, A. Švigelj and G. Kandus 463

Supporting node mobility using mobile IPv6 in a LEO-satellite network: B. Sarikaya and M. Tasaki 481

Volume 19 Number 6 November–December 2001

Topological design, routing and capacity dimensioning for ISL networks in broadband LEO satellite systems: M. Werner, J. Frings, F. Wauquiez and G. Maral 499

GPRS random access channel performance over the Geostationary Mobile Satellite Standard: D. A. Voce 529

Joint spectrum and power optimization in the design of the UMTS satellite component: E. Cianca, S. De Fina and M. Ruggieri 541

Providing multimedia communications services from high altitude platforms: D. Grace, N. E. Daly, T. C. Tozer, A. G. Burr and D. A. J. Pearce 559

Analysis of handover characteristics in shadowed LEO satellite communication networks: Y. H. Kwon and D. K. Sung 581
